Product description

The HDPE sunshade is a durable and practical choice for creating shade and protecting against the UV rays of the sun.

Material: HDPE, 320 g/m²

Shape: Square

Dimensions: 3.6x3.6 meters

Shade area: approximately 13 m²

Color: Camel

UV Protection

The sunshade is made of a durable woven fabric with a UV value of 10 and is certified according to the UV-801 standard. This means it blocks 90% of the sun.

Rain and Wind

Heavy rain will pass through the sunshade. However, dew or light rain will be directed off the shade when it is installed with a slight slope. The sunshade should be taken down in windy
