Product description

The Gallows with Climbing Net offer children a unique and exciting climbing experience. With a robust net anchored between the sturdy beams, adventure and fun are guaranteed.

On this climbing net, children can challenge their physical limits. Reaching the top can feel like a great achievement, especially when attempting to cross the top beam. Besides developing their balance, coordination, distance judgment, and muscle strength are enhanced. The varied materials in the equipment activate and sharpen the children's senses.

Multiple children can play and climb at the same time. This encourages cooperation and social interaction, as the children motivate, help, and challenge each other on their way to the top.
